

Cotesi One

TECHNICAL INFO SHEET

Cotesi One

This highly innovative product responds to the needs of new generations of Big Balers since most of the heavy twines are inadequate to cope with the increased demands of strength.

The development of this product results from global know-how in polymer and extrusion technology, completed with extensive in house testing facilities as well as field tests. With Cotesi One professionals are now able to take full advantage of the superior performance of their balers.

UV Protection
