

BAG

HDPE

REINFORCED 27X70

SILO SEALING

- Clean
- Reliable
- Durable
- Convenient

Grand Harvest reinforced 27x70cm is a bag made of High-Density Polyethylene (HDPE). Resistant to abrasion this bag must be filled with gravels only. Its small size allows you to ballast efficiently your Subtex cover or any other protective tarpaulin. Its low weight allows a simple and quick handling.

Fill with gravels

Integrated handles

Storage on pallet

SIZE

27 x 70 cm

ADVANTAGES & TIPS

- . To be filled only two-thirds of its capacity with non-sharp gravels of 10-22mm so it flattens out on the silo. Avoid sand
- . Water drains alone. It does not freeze on spot
- . Anticipate **8kg of non-sharp gravels** per Silobag
- . 7 years UV warranty
- . **Stored palletized** when not in use and ideally store under cover when the silo is empty and away from rodents
- . 2 + 1 handles for a rapid and easy handling
- . Filling limit must be respected for a longer use

You will work cleanly and efficiently!
